## STEEL LEADS UPWARD TURN; RAILS HARDEN;

New York, April 19.—Encouraged by the more hopeful aspects of the war sit-uation, traders continued at the outset of today's stock market to press their aduation, traders continued at the outset of today's stock market to press their advantage of the previous session. In this movement they were aided by further short covering and indications of public participation. United States Steel again led the rise in volume of transactions, gaining a point. Other equipments, also coppers and shippings, were strong, and rails hardened. Liberty bonds displayed firmer tendency.

rails hardened. Liberty bonds displayed firmer tendency.

A few specialities were higher in the final hour, but leaders proved more susceptible to profit-taking. The closing was firm. Liberty 3½s sold at 58.82 to 98.88; first 4s, 96.38 to 96.62 and second 4s at 96.32 to 95.64.

Reactions of 1 to 1½ points from top prices set in later. These were accompanied by moderate heaviness in American Telephone and Western Union, which in turn was offset by renewed strength in leathers, Baldwin Locomotive and Maxwell Motors.

American Sardines. Our imports of sardines from France and other European countries have been almost entirely cut off by war, but the California sardine industry is developing so rapidly that N. B. Scoffeld, fish and game commissioner of that state, estimates an output of 2,500,000 cases of California sardines in another year, The California sardine has suffered market handicaps due to lack of standardization of pack. This difficulty is now being overcome by co-operation among the packers, and better methods of handling the fish from the time they are taken out of the water until they go unto the can are being developed. Canners representing 90 per cent, of the Maine sardine-canning industry in co-operation with the food administration have volantarily agreed to reduce their price to \$5.60 a case of 100 cans for the onefourth size in oil and for the three-fourth size in oil and for the three-fourths size in mustard, and \$6.10 a case of 100 key cans in the one-fourth size in oil. This will enable retailers to sell the keyless cans at three for 25 cents, and the grocery trade has lined up behind the Maine canners to distribute both this and last year's ack at those prices,

#### FARRAR'S CONTRIBUTION.

(International News Service.) New York, April 19.—Geral-dine Farrar's singing drew \$100,000 from the pockets of New Yorkers and sent it on its way to the western front, it was announced today. At a local department store she of-fered to sing "The Star-Span-gled Banner" if \$50,000 worth of liberty bonds were bought at her booth. The money came so easily that she then offered to sing "Annie Laurie" when to sing "Annie Laurie" when the total had been doubled, and a second time she was called.

## WEATHER PROSPECTS AID PRICES OF COTTON

New York, April 19.—The cotton market showed renewed activity and excitement early today. The nervousness caused by yesterday's report that a price-fixing bill had been introduced into the house appeared to have subsided, but the market was unsettled by the big break in Liverpool. There was also heavy selling here for Liverpool account, which some attributed to hedging cotton held in the south for which no immediate freight room was available, and after opening irregular at a decline of 10 to 50 points July broke to 27.75c and October to 25.50c, or 50 to 63 points net lower. Later months were relatively firm on prospects for unfavorable weather in the belt, but showed net losses of 34 to 38 points during the first hour.

Trade buying of July and October and the heavy early covering appeared to have left comparatively few contracts around the ring, and there was quite a sharp bulge in prices during the early afternoon. July sold up to 28.39c, or a point net nigher, while October advanced to 27.36c, or 26 points over last night's closing. There was a decided falling off in the volume of business, and while advances were not fully maintained the tone was steadier.

The western belt forecast for frost in Oklahoma and northern Texas strengthened the builish view of weather prospects, and after the heavy early selling had been absorbed prices ruled steadier. July sold up to 28.25c and October to 27.20c before the end of the morning, or about 50 to 60 points from the early low level and 10 points net higher in the case of October.

NEW ORLEANS COTTON New Orleans. April 19.—Overnight selling caused a drop of 36 to 41 points in the price of cotton around the opening call here today, but the demand strengthened on the decline and a quick recovery resulted. At the end of the first half-hour prices were 2 points off to 7 points up compared with yesterday's close.

close.

The market turned dull but steady, standing toward noon 6 to 26 points over yesterday's close.

Reports of delay to planting through heavy rains in the western belt caused buying. In the trading up to 1 o'clock prices were lifted 14 to 44 points over the close of yesterday.

## **GREENWOOD CEMETERY BEE KEEPERS CAN BUY** ALL SUGAR REQUIRED

No changes have been made in the published price list of the Hamilton county food control board, and the wices of all commodities remain un-

changed. The food administrator has received an explanation of status of sugar sales to beekeepers as some misunderstanding has prevailed for some time. This

explanation reads as follows:

"The United E tes food administration has announced that it will al-low the sale of sugar to aspiarists in all cases where the safety of the bees would be endangered. Should the keeper fall to supplement their natural stores, one pound of sugar fed at a critical moment may mean ten ounds of honey later in the year. "The needs of the bee have been recognized in other countries. some of them experiments are being conducted in an effort to find some practical method of denaturing sugar deceased is survived by five sons and one daughter: G. Russell John B., Silas J., Allison H., of North Chattanooga, and L. Vander, of Los Angeles, possibility of using the apiary as a means for obtaining sugar under false pretenses.'

> Margins Increased on Mill Products. Federal Food Administrator H. A. Morgan states that after consultation with the federal food administration and many trade representatives, it has been decided to revise the margins of profit for jobbers in wheat mill feeds established March 15 for all states east of the Mississippi river and south of Le Ohio river, including Louisiana and Arkansas. Federal food administrators are authorized to fix a schedule of etail profits on wheat mill feeds. Adninistrators in the northeastern states have adopted a schedule of profits for retailers of \$4 maximum in ton lots, or over, but in less than carcload lots; 35 maximum for less than ton lots.
